Why XPO

Our highly integrated network delivers customized supply chain solutions to the most successful companies in the world.

- Less-Than-Truckload
- Full-Truckload
- Intermodal and Drayage
- Expedite
- Global Forwarding
- Last Mile
- Managed Transportation
- Supply Chain Logistics
Companies choose XPO because **we have the global scale** to manage and transport their goods anywhere in the world.

- 96,000 employees
- 1,506 locations
- 30 countries
- 50,000 customers
Why XPO

Customers rely on XPO because of our experience.

With leadership positions across the supply chain, we’ve proven that rich data and industry expertise give our customers a competitive advantage.

- **Largest last mile** logistics provider of heavy goods in North America
- **Largest manager of expedited** shipments in North America
- **Second largest contract logistics** provider worldwide based on facility space, with the largest outsourced e-fulfillment platform in Europe
- **Top three LTL provider in North America**, and a leading LTL provider in Western Europe
- **Second largest freight broker** worldwide, with a leading road fleet in Europe
- **Third largest provider of intermodal** services in North America with a national drayage network
Why XPO

We invest approximately $550 million a year in technology.

Our customers continue to grow with us because of our technology. It fuels our network by creating efficiency and visibility, and optimizes our operations through automation and customization.
We are safe, respectful, entrepreneurial, innovative and inclusive. We are XPO. Together, let’s move the world forward. [Click to watch.]
Why XPO

We are unified by a single, unwavering principle:

Our tagline is intentionally inclusive and articulates the positive impact we have on the world.

Let’s Move the World Forward.
Less-Than-Truckload

Laser focused on on-time, damage-free performance
OVER 400 LTL LOCATIONS IN NORTH AMERICA

Service to approximately 99% of US zip codes
Experience

**One of the most modern fleets** in the industry delivering approximately 20 billion pounds of freight a year

**Business intelligence reporting** and custom analytics drive continuous improvement

**A leader in Western Europe** in LTL (palletized) service

**Over 30 years of experience**

---

**MAJOR CAPACITY**
- Approximately 7,500 tractors and 24,000 trailers in North America
- Safe, modern line-haul fleet

**DAMAGE PREVENTION**
- Proprietary, heavy-duty decking system
- Safety-alert technology installed in fleet

**RELIABLE**
- 12,000 uniformed, professional drivers
- IT-enabled dock operations
- Customer Care team dedicated to your business
LTL.xpo.com is a personal suite of shipping management tools and resources.

- **Pre-populates** information and templates for frequently used items
- **Quotes rates** on demand based on your pricing agreement
- **Tracks intuitively** with predictive search capabilities
- **Reports** on the up-to-the-minute status of shipments and manifests
Full Truckload

Massive capacity managed with cutting-edge technology
Scale

Our robust capacity mix ensures **optimal equipment and price**.

- **Brokerage network of over 38,000 carriers** with more than a million trucks in North America
- **Dry vans, dropdecks** and refrigerated equipment; specialized and permitted flatbeds
- **Constant access to big data** on lanes, pricing, carrier ratings and market conditions
- **Fierce commitment** to execution and follow-through
- **Single point of accountability**
Experience

- Finished goods of all types
- Raw materials and parts
- Temperature-controlled
- High value and high security
- Heavy haul and oversized
- Single-source multinational
XPO Connect is our interactive digital freight marketplace that transforms visibility into multimodal business intelligence.

Our proprietary algorithms are turning masses of data into relevant information in split seconds, so that our customers can purchase transportation as efficiently as possible.

Shippers get insights into spot market rates, weather conditions, traffic and other factors that can help them make informed decisions.
Drive XPO is our mobile app that automates key functions for trucking carriers and interacts with our brokerage system.

- Integrates carrier operations with a combination of procurement and productivity tools for drivers through a single interface
- Bred from Freight Optimizer and powered with XPO Connect’s connectivity and multimodal architecture
- Displays load postings in real time with details such as origin, destination, freight type, dates, special handling and shipper information
- Reduces empty miles for drivers, giving shippers access to more capacity
Intermodal and Drayage

Large, owned container capacity and national drayage network for seamless solutions
A **top three** intermodal provider in North America.

- **Approximately 10,000 53-ft. boxes and 5,000 chassis** exclusively controlled by XPO, and access to small box capacity
- **Leading US drayage capacity of 2,400** contracted independent owner-operators
- **HazMat or tank certifications** held by majority of contractors
- **Access to over 25,000** additional drayage trucks
- **Network of over 37 terminals** serving every major US rail ramp and port
- **Large Mexico-based** chassis fleet and ramp personnel
- **Cross-docking and transloading** for efficiency and control
Experience

We analyze our customers’ shipping patterns and identify savings opportunities.

- National rail ramp drayage network
- TWIC-compliant port drayage
- Ocean drayage management services
- Certified HazMat handling of freight
- Safety-conscious contract carriers
- A focus on visibility, follow-through and communication
- Over 30 years of experience in Mexico
Technology

Proprietary Rail Optimizer intermodal management system is driving on-time performance.

- Tracks door-to-door movements of long haul freight with GPS on containers
- Manages 53-ft. owned containers, small box and drayage capacities
- Communicates constantly with railroads to proactively identify any delays
- Fosters driver communication during drayage legs
- Keeps shippers informed through EDI integration and an online, self-service portal
Expedite

Time-critical deadlines met by ground, air and automated TMS
#1 manager of expedited shipments in North America.

GROUND TRANSPORTATION

- **Extensive North American** network of independent owner-operators with capacities from 1 to 44,000 lbs.
- **Optimal equipment:** cargo vans, sprinters, straight trucks, tractor-trailers, lift gate, temperature-controlled
- **Special handling** includes blankets, straps and pads, thermal mapping, debris removal and more

AIR CHARTER

- **Proprietary online bid system** collects competitive bids in a transparent manner
- **Immediate access** to quick-launch carriers, project cargo carriers and AN-124 operators
- **Air and ground combinations** for door-to-door service
- **Air freight** services available
Experience

OVER 30 YEARS OF EXPERIENCE

- **Rapid, reliable response** minimizes supply chain and production disruptions
- **Experienced owner-operators** understand the urgent nature of expedite
- **Disciplined processes** for high-value, high-security goods
- **Ability to pivot quickly** between modes as part of XPO’s integrated service range

CROSS-BORDER NETWORK

- **Expedited movements** in and out of Mexico and Canada
- **Urgent service** to eight Mexican airports and on to 18 cities
- **Intra-Mexico capabilities** and experienced on-the-ground team
- **Bilingual** cross-border specialists
XPO’s expedite capabilities include the largest web-based TMS for urgent load tendering in North America.

- Over 700 qualified carriers can potentially bid on your load
- Over 95% of shipments are sourced in 24 minutes or less
- Loads are self-posted via automated or manual order entry
- Requirements are broadcast to carriers within minutes of receipt
- Loads are assigned electronically based on competitive carrier bids
- Automated GPS as well as cellular track and trace, proof of delivery, invoicing and reporting
Global Forwarding

Shipments of any size, shape or weight, anywhere in the world
Scale and Experience

Our global footprint comes with local expertise in more than 15 countries.

- The experience to guide freight through regulatory processes at thousands of destinations in Asia, Europe and the United Kingdom
- Subsidiary registered as a Non-Vessel Operating Common Carrier (NVOCC)
- Licensed customs brokers in place to facilitate customs filings, ISF filings, bonds, duties and taxes
Our technology has eyes on the world, giving you shipper information, weight, tonnage, consignee, number of SKUs, transit time and real-time location status.
Last Mile
Consumer-facing service for superior brand protection
#1 last mile logistics provider for heavy goods in North America

- **85 market delivery centers** with service across the US
- **Over 500,000 installations** and assemblies a year
- **Professional deliveries** to homes, businesses and new construction sites
- **Pickup and delivery service** in over 500 markets in North America
- **European service** available in select countries
Industry-leading track record of consumer satisfaction with retail and e-commerce deliveries.

- **Cutting-edge mobile technology** ensures process consistency with contractor network
- **Code compliances** rigorously maintained and documented
- **Online order entries**, street-level geocoding and UPC label creation
- **Pre-delivery inspection**, with expert touch-up and repair as needed
- **Shipment optimization**, route-building and delivery scheduling
- **Installer network** includes licensed master plumbers
Our proprietary, customer-centric technology is developed exclusively for last mile logistics for heavy goods.

- **Ship XPO** is a web-based suite of technology tools for consumers
- **Automated notifications** alert consumers to appointments and deliveries
- **GPS tracking** provides live ETA updates and electronic PODs
- **Voice integration technology** allows consumers to manage their orders by using smart speakers with Amazon’s Alexa and Google Assistant
- **Augmented reality** creates a virtual image of how an item will look in a room, dramatically decreasing the likelihood of returns and damages
Managed Transportation

Customized, cost-effective multimodal solutions
Scale and Experience

Customers trust us to create solutions that leverage our technology, experience and buying power to manage their freight and drive value across the organization.

**SCALE**
Access to market intelligence and buying power regionally, nationally and globally

**OPTIMIZATION**
Proprietary technology integrates with thousands of carriers

**RELIABILITY**
24/7 mission-critical control tower and expertise
Fully customizable services that enhance flexibility and provide you with constant visibility and control.

- TMS data sharing
- Customized dashboards hone in on key information
- Secure online portals
- KPI performance scorecards
- Door-to-door online visibility
- Freight spend analysis
- Shipping pattern analysis
- Robust reporting, scheduled and on-demand
- ISO9001, ISO14001 and Lean-certified
Contract Logistics

Customized solutions designed to give customers a competitive advantage
Scale

- **$85 billion in goods** distributed across a broad range of industries
- **201 million square feet** of logistics facility space globally; **94 million** in North America
- Skilled **workforce** of approximately 56,000 globally; 21,000 in North America
- **Global footprint** ensures consistent service for our multinational customers
- **Use of automation**, robotics and other technical advances
- **Flexible solutions** for seasonal volumes
- **Ability to add sites** quickly in any market
We collaborate with industry-leading companies to create customized solutions that deliver results.

- Deep vertical expertise by industry
- Operational excellence
- Long-term relationships

We collaborate with industry-leading companies to create customized solutions that deliver results.
Our proprietary, next generation software suite brings wireless connectivity to the logistics process. This virtual command center features:

- **Rapid deployment** using standard processes and controls
- **Mobile compatibility** keeps cutting-edge capabilities at hand
- **A cloud-based environment** to enable wireless warehouses
- **Role-based security**
- **A multilingual, global-ready solution**
Future-proof contract logistics, managed with a single, integrated solution for analytics, automation and intelligent machines.

- **Real-time visibility** of transactions, order status, and inventory
- **Single integration** of all supply chain solutions, including warehousing and transportation
- **Dynamic functionality**, adaptable to robotics and automated solutions
- **Predictive analytics**
- **Data extraction** and download
- **User-configurable dashboards** and reporting
- **Distributed order management** to support multi-site and multi-channel environments
XPO Direct is a shared network of strategically placed stockholding sites, cross-docks and last mile hubs.

- **Flexible, variable-cost** model solves seasonal peaks
- **Manages B2C and B2B** fulfillment without the capital investment
- **Positions goods** within one-day or two-day delivery of 90% of the US population
- **Shortens time** for retail store replenishments
- **Predictive algorithms** forecast optimal stock positioning
- **Supported as needed** with last mile, contract logistics, and brokered, owned and contracted transportation capacity

SUSAN G. KOMEN FOUNDATION

XPO is a partner with the Susan G. Komen Foundation, the nonprofit that helped ignite the fight against breast cancer.

As part of our relationship, XPO added Komen’s iconic pink running ribbon logo to hundreds of our trucks to raise awareness of Komen’s mission.
Partnerships

MIT

XPO is the first global logistics company to join the MIT ILP, which pairs world class research with industry leading corporations to tackle the biggest business challenges.

Sharing insights with MIT on developing technologies is another way we’re driving productivity and innovation for our customers.
For 39 consecutive years, XPO has been the official transport partner of the Tour de France, supporting all 21 stages of the renowned cycling event. In 2019, we extended the “Move the Tour” partnership though 2025.
**XPO Connect** Receives Supply & Demand Chain Executive 100 Award for Innovation

XPO’s digital freight marketplace provides **real-time visibility and interactivity for shippers, carriers and consumers**

- **2018** US Launch
- **2019** Europe launch
- 2,400 customers
- 18,000 customer users
- 60,500+ carriers
- 150,000 driver downloads
- ~20% per month adoption rate growth

XPO surveyed 2,000 consumers — 1,000 each from the US and the UK — to see if buying behaviors had changed during the pandemic. We found some interesting new trends and some expected ones.

Read the full report at www.xpo.com/consumertrends

Consumers in the US were more likely to buy groceries (53%), apparel (49%) and cleaning supplies (41%) online during the pandemic. In the UK, consumers were more likely to buy groceries (65%) online, followed by cleaning supplies (47%) and beauty products (46%). Interestingly, consumers age 55+ bought much more apparel online than did their younger counterparts, age 18-34.
COVID-19 Response

FREE WHITEPAPER
Learn how to protect essential workers during extraordinary times.

To obtain a copy of this whitepaper and see how we've managed to keep our employees' rate of exposure to COVID-19 well below that of the general public, contact your XPO Representative or click here to download.
Our approach to sustainability – and all areas of our business – is one of **purpose-driven progress rooted in innovation**.

Visit sustainability.xpo.com to read about our efforts and track our progress.

- 86% of materials used when XPO constructs a new 28-ft, double-walled trailer is recycled
- 25% of XPO’s global workforce is women, which is higher than the industry average
- 78% of waste was recycled by XPO operations in Europe in 2018
- 1.7 million training hours devoted to learning and development in 2018 for XPO employees in Europe and North America
- $90 million was invested in 2018 to purchase nearly 800 tractors, all of which meet GHG regulations
- 79% of material handling devices, such as forklifts, used at XPO supply chain sites are battery-powered
- 36,000 employees were hired by XPO in 2018, all of whom received XPO’s Code of Business Ethics and Ethics Policies
Let’s Move the World Forward.
